

STUDENT NAME:

CREATIVE MEDIA

Creative Media provides you with a unique, competitive edge. Not only will you have the experience of working with professional equipment, you will also have the potential to achieve both outstanding grades and a professional portfolio from working with a range of industry clients.

Our courses focus heavily on the digital aspects of media, ensuring you develop the digital skills and knowledge required to meet the demands of the industry.

We have prepared a couple of activities for you to complete in preparation for studying Media at College.

Please send your completed tasks to applicants@knowsleycollege.ac.uk with the subject line 'Completed Media Applicant Activity'

We hope that you are excited about taking your next steps into Further Education in September! We look forward to welcoming you.

ACTIVITY ONE

Do you like Film and Television? Well, activity one is perfect!

Write a film or television programme review analysing how the audience is drawn in to the story.

Netflix, Amazon and Television Networks are all producing High End drama productions and there is now something for everyone to watch in every genre.

Choose two pieces of film or television content and write a critical review of each. What is good about it, what are the negatives, analyse the Mise en Scene, (how the scene is set up to create atmosphere) the quality of the cinematography, the script and the acting.

Each review should 350 words long give or take a few, and you can include images and links to specific scenes to make your point.

Take care with your spelling and grammar and read over the text before you submit it.....make an impression! Do Your Best!

If you do not have a computer, you can write your review by hand and take a photograph of it.

ACTIVITY TWO

Do you like Photography and Filming? Well, activity two can showcase your talents.

During the Covid-19 pandemic , life changed dramatically for all of us. We couldn't go outside very much and we haven't seen many of our family or friends for weeks, but there have been positive sides to it too.

Less pollution, more time to talk to family and tidy your rooms, maybe!

This practical task will help you to think about the positive and the negative effects of the lockdown.

Using your phone (or camera if you have one) take a series of photographs that depict our new way of life.

You must make sure you take time to compose the images creatively, they must be in focus and they must convey a message (positive or negative)

Minimum number of images: 5

Maximum: 10
